

# RAFFY G. SIMON

## INTRODUCTION

Hello! I am Raffy G. Simon, and I am a Bachelor of Science in Computer Science Graduate at STI College General Santos City. I have a passion for technology and enjoy working on a variety of projects, including games, websites, desktop applications, and mobile apps.

## EXPERIENCES

### Razo Group Of Company

2025 - 2026

#### Web Developer

- Developed a responsive multi-business company website using HTML, CSS, and JavaScript to showcase various services with a clean and user-friendly interface.

### Thesis

2023 - 2025

#### Mobile Application Developer

- Using Flutter, I created a ride hailing mobile application for tricycle in general santos city it is functional and smooth in any android device.
- I use Google api for gps then firebase for the database no need CSS, since flutter is already a single language for back and front end.

### ABS Company

2020 - 2021

#### Encoder

- Accurately encoding and updating customer information, including mobile numbers, email addresses, names, and addresses, ensuring data integrity and confidentiality.
- typing speed of 46 words per minute and accuracy of 100%, ensuring efficiency.

### STI Expo

2019 - 2020

#### Web Developer

- Using PHP, SQL, and CSS, I created an inventory website for Russan company, guaranteeing its functionality and smooth database integration.
- Using CSS, responsive and user-friendly web interfaces were designed and put into use.

### Custard Apple

2019 - 2020

#### Web Developer

- Developed websites using PHP, SQL, JavaScript, and CSS, ensuring functionality, design quality, and seamless database integration.
- Designed and implemented responsive, user-friendly web interfaces using CSS, focusing on layout, typography, and visual aesthetics to enhance user experience and maintain brand consistency.
